

Remote access to My IntraComm made easier

05/08/2016 d7073cb4-7b40-4137-b3f1-f38c90ad4d59 2 0

You can now log into My IntraComm more easily using the ECAS Mobile app on your smartphone or tablet.

<https://myintracomm.ec.europa.eu/EN/NewsPortal/Pages/NewsDetails.aspx?itemid=d7073cb4-7b40-4137-b3f1-f38c90ad4d59>

How easily?

Call <https://myintracomm.ec.europa.eu> from your device's browser

- Select the "On mobile authentication" option
- Enter your 4-digit PIN in the ECAS Mobile app that opens up
- Accept the incoming message from ECAS
- Switch back to your browser – you are in!

This can be especially handy if you need to refer to information on staff regulations, or want to keep updated on the latest internal Commission news, while out on holidays.

How do I prepare for it?

The registration process only takes a few minutes with your PC at the office and your targetted device at hand. [Follow the guide](#).

Please note that some of the services that you can reach through links on My IntraComm may require you to authenticate again on ECAS. My IntraComm Collaboration sites should also preferably be accessed using the SharePlus application.
