

About this issue

Extract of the introduction by Maruja Gutiérrez

On picking it up, you may have noticed that this issue is a little bit thinner. It has 52 pages instead of the up to now usual 72. This is in line with the Commission's decision of going digital, which at the OIB, our publisher, translates into going paperless as much as possible and reducing printing to a minimum. Going digital is a sign of the times, with many positive aspects.
